

Home Post Code	Would you make use of an additional multi-use track based on the proposed design ?	How would you make use of an additional multi-use track based on the proposed design ?	How often do you visit Fossdale	Why do you visit Fossdale Moss	Are there any other comments you would like to make regarding this area of open space? - Other views
PR26 7TB	Yes	To crest an alternative walking and riding route. Allows for space to spread out and utilise a boggy wet area currently underused	Weekly	Horse Riding	I also walk my dog there regularly
Pr267tb	Yes	As a local dog walker and a horse rider I would welcome a new path so we all have plenty of options. The area at the moment is quite overgrown and would welcome some improvements	Weekly	Walking	The parks are such a lovely place to walk my dog and meet the community and any new paths will generate new routes and will also allow more path walks instead of the mud in the winter
Pr267at	No	There is absolutely nothing wrong with the current path that is available to walk on. It is suitable for pedestrians (including disability), animals such as dogs and horses. I don't think this is a good idea.	Daily	Walking	
Pr26 7pb	No	It's not really long enough to be a loop walk - there are already footpaths on both sides of the bypass that create a loop	Daily	Walking	
PR26 7RZ	No	These spaces are used by myself and my dog for training. This path encroaches on the available space for no discernable benefit	Daily	Walking	These spaces are used by dog walkers who want to allow Thier dog freedom to roam without worrying about other users of the main path
Pr26 7at	Yes	I have no problem with the proposal. However I would have thought there would be higher priorities, like potholes (we know different budget) to spend locally generated tax revenue on.	Weekly	Walking	The main green space during summer months should be fully cut so that children can play. There are other small areas in this park for bees etc where the cut can be peripheral
PR267AT	No	In my opinion, and that of many of my neighbours that live in the houses that back onto the existing and proposed path, the additional multi-use track is not required and certainly not wanted. It will attract more youths on motorcycles.	Daily	Walking	This open space should be protected from being used by youths on motorcycles, this are is plagued with that problem. The Police have been contacted many times with no results, as has Leyland Council with the same result, each passing the responsibility to each other. I have many video recrdings of such youths on bikes, a log spanning 18 months of their activities, they even se fir to Memorial Bench on the path. This are needs to be protected from that kind of behaviour.
Pr26 7at	Yes	We walk the dogs around these tracks so yes we would use them if safe to do so	Daily	Walking	It is hard to work out exactly which area you are talking about but any changes should be respectful to residents property's and privacy.
Pr26 7as	Yes	Being a dog owner it would be great to have another walk we can use.	Daily	Walking	Are there any plans to connect the existing paths (Fossdale and Paradise Lane Park) to the paths created on Centurion Village? That would provide a really good loop circuit and if the paths created went down the side of the allotments on longmeaney gate would be a really nice walk
	Yes		Daily	Walking	Improved drainage is needed
Pr267at	Yes	Use it when walking the dog	Daily	Walking	Maybe a play park for the kids
PR26 7SU	No	Why do we need a loop I'm sure there is better things to spend the money on the path goes round in a loop now which is fine.	Never	Don't Visit	Think it's ridiculous if this goes ahead ,more places for some of the strange people that walk round full of weed which is scary,had to tell a lady the other day as a lad in his 20is was lurking around and looking suspicious.
PR267AS	No	seems pointless	Daily	Walking	would cause more nuisance on the feild with dirt bikes etc
PR26 7AS	No	This area already attracts nuisance off-road bikes and I feel that this additional track would just encourage this more, as well as losing field space for activities. The gates from the park onto Fossdale Moss were removed and still not replaced.	Daily	Walking	
Pr267at	No	There is absolutely nothing wrong with the path that is in place already. The wild life in the tree will be disrupted, also newts have be spotted on our walks. This is a ridiculous idea.	Daily	Watching Wildlife	

Home Post Code	Would you make use of an additional multi-use track based on the proposed design ?	How would you make use of an additional multi-use track based on the proposed design ?	How often do you visit Fossdale	Why do you visit Fossdale Moss	Are there any other comments you would like to make regarding this area of open space? - Other views
PR26 6PE	Yes	It would provide a little variety to your walk through the area.	Daily	Walking	It would be great to introduce a few more benches where it is beneficial to sit i.e. by open green areas and by the river (on the other side of Schleswig Way). Also, the whole Fossdale walking path and the (Sue's Woodland Walk/Leyland Loop area on the n the other side of Schleswig Way along the River Lostock) would really benefit from something for the children to see, i.e. some wooden animal sculptures dotted around - why not get local artists to design these, as these would also add something to the whole area.
PR267UE	Yes	Longer walks with the dog.	Daily	Walking	
PR26 6BE	Yes	The route could be improved by shifting it further left. This would avoid cutting through the central open area and create a more distinct alternative to the existing path, encouraging greater and more varied use of the space.	Weekly	Walking	Additional waste bins should be provided on the new track.
Pr253nt	Yes		Weekly	Horse Riding	
Pr26 6rd	Yes	Hacking and walking the dog also, multi use, multi purpose	Weekly	Horse Riding	
Pr267ry	Yes	I live in the area and would use it for dog walking, horse riding, taking grandchildren out on their bikes, elderly parent on mobility vehicle	Weekly	Horse Riding	Gives more options for vulnerable road users to to access outside space without having to worry about vehicles
PR26 7ST	Yes	The proposed design would allow for increased use and diversity of paths whilst using the area for pleasure activities such as; walking, dog walking, running and horse riding.	Weekly	Horse Riding	
Pr75rg	Yes		Monthly	Horse Riding	
Pr75rg	Yes		Daily	Horse Riding	
PR26 7SN	Yes	As a daily user of the multi use tracks on both sides of Schleswig Way , I would be able to vary my walking route. This section of the tracks has become more popular over the past year, warranting the new section.	Daily	Walking	
PR7 7LQ	Yes	This path would be ideal as a horse rider. Brilliant for the area for residents and visitors.	Weekly	Horse Riding	
PR251UN	Yes	For dog walking,cycling and safe off road route for horse riding. Leyland has a large horse population which has been pushed onto the main roads by all the new houses being built.	Daily	Horse Riding	It's unfair how selfish some people are regarding horses when they were here before the houses were built. People come from all over and don't respect what that area of Leyland is.
PR4 5GD	Yes	The tracks through the park are a real bonus for dog walkers and horse riders alike	Weekly	Horse Riding	I really think this path would be a great addition to the existing tracks
Pr25 4ys	Yes	I would use it to take my grandchild for walk with my dog. I would also utilise the new path to ride my horse as my livery Yard is in Ulnes Walton Lane. It would be much safer using this path than riding on the roads. We need a safe space to ride.	Daily	Horse Riding	It is a safe space to walk with the horses.
Pr25 4ys	Yes	Yes I would use this to walk the dog and take the horses out. A would help us feel more safe when out hacking this would be really beneficial.	Weekly	Horse Riding	
Pr25 3pu	Yes	We need more accessible paths for horses to link all the bridleways paths to keep the horses off the busy roads as much as possible.	Monthly	Horse Riding	

Home Post Code	Would you make use of an additional multi-use track based on the proposed design ?	How would you make use of an additional multi-use track based on the proposed design ?	How often do you visit Fossdale	Why do you visit Fossdale Moss	Are there any other comments you would like to make regarding this area of open space? - Other views
Pr25 3xj	Yes	It will encourage people to get out more and exercise	Weekly	Walking	
PR5 4RT	Yes	I ride with my horse the existing path daily and walk my dogs daily, this path is important to keep me safe from traffic	Daily	Horse Riding	Please ensure we have a safe place to ride it's vital to keep us safe
Pr251ud	Yes	For walking my dogs and getting our horses off the busy main road. What a better opportunity for everyone.	Weekly	Horse Riding	
Pr25 4ys	Yes	We have horses stabled on ulnes Walton Lane and would use the path to ride the horses instead of using the roads which seeming to be getting busier and are unsafe	Daily	Horse Riding	
Pr55lb	Yes	Begging a horse owner, this would make it a lot safer to ride	Daily	Horse Riding	
Pr255sn	Yes	I ride my horse around this area and my husband rides his bike or runs with me. This would be an amazing enhancement to the area where too many of our countryside is unaccessible.	Weekly	Horse Riding	We need safer areas to ride, bike and jog.
Pr26 7xh	Yes	I am a local horse owner and with roads becoming increasingly dangerous for hacking a horse(s), off road riding is by far the preference and would be most welcome. I am also a dog owner and a pleasant walk on made paths is also most welcome.	Weekly	Horse Riding	
PR7 7DN	Yes	I would be able to ride my horse down it, while still being out of the way of general traffic down that path.	Weekly	Horse Riding	
Pr252tr	Yes	For horse riding. It is very dangerous riding on the roads around this area.	Weekly	Horse Riding	
Pr25 4ye	Yes	This would be a huge benefit to us with horses as it would mean less access needed on main roads. The dangers are the roads for people on horses in becoming extremely concerning. This would help lower the risk.	Monthly	Horse Riding	
PR26 9HB	Yes	My friends and I regularly walk all the tracks covering the area from Emnie Lane to Longmeanygate. The multi use tracks offer an excellent surface in all weathers and are suitable for walkers, cyclists and horses, offering pleasure for all.	Weekly	Walking	Currently a lot of the open grass areas near fossdale moss are far to boggy rendering them unusable a lot of the year. The new track would be a vast improvement and ensure the open spaces can be used by all.
PR26 7TB	Yes	I would use it for horse riding and walking dogs on a regular basis With the increase in housing and local population it will provide additional routes for everyone The area is currently boggy and underused so would benefit from this improvement	Weekly	Walking	As we see a massive increase in the local population it will give alternative routes and space for different groups It is currently boggy and overgrown with little or no usage. With external funding it seems an excellent proposal for this area of land.
Pr25 5tj	Yes	I ride my horse and walk my dog regularly in this area and this would make a huge difference and make things safer and better for everyone	Weekly	Horse Riding	
Bb1 2eh	Yes	Health and well being	Monthly	Horse Riding	

Home Post Code	Would you make use of an additional multi-use track based on the proposed design ?	How would you make use of an additional multi-use track based on the proposed design ?	How often do you visit Fossdale	Why do you visit Fossdale Moss	Are there any other comments you would like to make regarding this area of open space? - Other views
PR25 2XD	Yes	It would open it up to a wider use for people, without taking any of the character and beauty of the area , hopefully.	Monthly	Walking	I would hope that the need to cut down any trees would be minimal, as that would defeat the object and spoil tge charm of the area, also lessen any destruction of wildlife habitat
Pr7hb	Yes	Horse riding Dog walking	Weekly	Horse Riding	There is a need to build on the current bridleway access for horse riders due to the increase in traffic and danger to riders.
PR267su	Yes	Would be super to open the path up and create more space for alternate road users and be good to get horse riders off the roads	Daily	Horse Riding	
PR26 6TH	Yes	We often take the dog and ride the ponies through there and it would give us a loop to walk and also give us an alternative route should there be a lot of people on the existing track which there sometimes is.	Weekly	Horse Riding	
PR26 7TB	Yes	Would use as a connecting path to Longmeanygate through the new estate. Regularly use the new public use path now. This would extend my area for exercise and walking my dog.	Weekly	Walking	The only open space and access in the area. Essential to keep such routes in mind for the local community.
PR26 6PL	Yes	I live in the vicinity of the area & use the parks 4/5 times weekly as I have granddaughters plus a dog & a horse. All the improvements will allow more diverse groups of people to enjoy our outdoor spaces happily, safely & alongside each other.	Weekly	Horse Riding	Regenerating our tired spaces for multi purpose usage when we are losing so much of our green spaces to housing is vital for everyone's mental health & well being.
PR253DF	Yes	I enjoy meeting friends and walking all the paths in this area. It's great that they link up to enable shorter or longer walks	Daily	Walking	
Pr25 4ye	Yes	To open up more options for horse riders that are safe and off the road.	Weekly	Horse Riding	
PR25 1AX	Yes	We regularly use Ulnes Walton Lane for hacking to the rugby pitches. The traffic is horrendous, particularly with prison staff vehicles, if we could access the proposed track it would keep horses off the dangerous road	Weekly	Horse Riding	The proposed new trail will safeguard horses and riders from speeding and dangerous traffic
Pr25 2fd	Yes	I often meet a friend and walk this area, a proper track would be much better due to my friends age and walking ability	Weekly	Walking	Making it multi use will enable more people to access our green space
Pr25 1qx	Yes	Path away from roads..safe	Monthly	Walking	Safe open space
Pr25 1la	Yes		Monthly	Horse Riding	
PR26 7SN	Yes	I walk the existing path on a daily basis and would welcome a new route. There has recently been an increased use of the existing path further warranting the construction of an additional track.	Daily	Walking	This area, along with the other tracks in the vicinity, form part of a very well used and popular Community facility. The mature trees, open grass areas and variety of wildlife are so important for wellbeing. With the tracks being multi use, everyone can benefit.
Pr25 2gh	Yes	It will help link up the bridleways	Weekly	Horse Riding	
Pr25 4ye	Yes	Hacking on horses	Weekly	Horse Riding	
	Yes		Weekly	Horse Riding	
PR26 7XE	Yes	I'm not a dog walker but enjoy a walk around the different paths in the area for exercise and wellbeing although with varying regularity.(So have put monthly below)	Monthly	Walking	
PR3 2JB	Yes	I have friends who would like to use the new path with their horses	Never	Horse Riding	

Home Post Code	Would you make use of an additional multi-use track based on the proposed design ?	How would you make use of an additional multi-use track based on the proposed design ?	How often do you visit Fossdale	Why do you visit Fossdale Moss	Are there any other comments you would like to make regarding this area of open space? - Other views
Pr26 8lq	Yes	Yes walking, cycling,	Weekly	Walking	There's been a lot of successful Multi to User tracks around the area making the Area so much better for everybody not just Walker
Pr26 7st	Yes	I walk my dogs everyday and also walk these paths everyday, I also have a horse and this path would be used on my daily hacks	Daily	Horse Riding	These paths are essential for everyone, dog walkers , walkers and horse riders
PR44SU	Yes	Great idea. Perfect for dog walking and horse riding	Weekly	Walking	Fully support
PR7 5LE	Yes	I already use the existing track to ride my horse and walk my dog. Another track added to this would be great.	Weekly	Horse Riding	A multi user track added to this area would be an excellent addition to help people stay active.
PR4 5DT	Yes	This would be a great place to take the horse keeping us off main roads and providing a safe space for us and the dog walking with us	Monthly	Walking	We need more open spaces keeping bikers, runners, walkers and horse riders safer away from main roads
Pr44zp	Yes	A safe space for the horse riding community	Weekly	Horse Riding	We need more safe spaces for the horse riding community
Pr76jw	Yes	Horse riding to avoid main roads	Monthly	Horse Riding	
Pr75JZ	Yes	I strongly support this proposal. Lancashire has almost no safe off-road routes. Over 3,100 horse road incidents were reported in 2024. Hacking is vital for welfare. This path would improve safety and reduce the need to ride on dangerous roads.	Weekly	Horse Riding	<p>I am writing to express my unequivocal support for the proposed footpath development.</p> <p>Lancashire has an alarming lack of safe off-road routes for equestrians. As a result, riders are forced onto busy roads where the risks are very real and well documented. According to the British Horse Society, in 2024 alone there were over 3,100 reported road incidents involving horses, resulting in 58 horses killed, 97 injured, and 80 people injured. In 2023 there were 3,383 incidents, with 66 horses and three riders losing their lives. Over 80% of these incidents were caused by vehicles passing too fast or too close.</p> <p>These are not abstract statistics. They represent preventable tragedies.</p> <p>Many riders in this area no longer feel safe hacking on the roads. I am one of them. Yet hacking is not optional — it is essential for equine welfare. Veterinary professionals routinely prescribe regular hacking as one of the best forms of physical and mental conditioning, particularly for horses with previous injuries, like my own. Without safe routes, we are forced to choose between our safety and our horses' welfare. That is unacceptable.</p> <p>This proposed path would:</p> <ul style="list-style-type: none"> •Reduce riders' exposure to high-risk road traffic •Directly improve horse and rider safety •Support responsible animal welfare
PR4 4AH	Yes	For safe off road hacking that is greatly needed around here	Monthly	Horse Riding	We desperately need safe off road riding spaces
wn75pz	Yes	As I am an equestrian with friends who live and are located local to the proposed plans this means we can enjoy our hacking with our horses without being on the direct roads meaning it is safer for us and stops congestion with cars passing us	Monthly	Horse Riding	
Pr44se	Yes	I ride my horses around here and would benefit greatly from not having to use roads	Weekly	Horse Riding	

Home Post Code	Would you make use of an additional multi-use track based on the proposed design ?	How would you make use of an additional multi-use track based on the proposed design ?	How often do you visit Fossdale	Why do you visit Fossdale Moss	Are there any other comments you would like to make regarding this area of open space? - Other views
PR7 2DN	Yes	The amount of off road hacking available in this area of Lancashire is very minimal, so to have an outdoor space available for horse and rider would be very beneficial given the amount of stabled horses in the area.	Monthly	Horse Riding	
Pr4 4tb	Yes	Yes.. We need more safe areas to ride horses away from traffic if the area... Leyland has a couple of areas that have already been successful as multi user paths and this additional one would be fantastic	Monthly	Horse Riding	Please consider a non slippy path that's permiable
PR5 6ru	Yes	We strongly support this off-road route. Local roads are fast and unsafe for horse riders, with frequent near misses. This link would reduce conflict with traffic and connect to Wymott, creating a safer, joined-up network for vulnerable users.	Weekly	Horse Riding	Enhancing this open space with an off-road equestrian link would improve safe access, reduce road risk and connect to Wymott. It would strengthen the green network, support wellbeing and ensure this space benefits all users.
PR45ZD	Yes	That more pleases to ride	Weekly	Horse Riding	
Pr25 1yd	Yes	I enjoy being outdoor with my family and for this to be a true multi user route including everyone, bikes, horse riders and disabled would be amazing for me.	Monthly	Horse Riding	This would be a truely valued off road route by everyone! Please keep vulnerable users safe and make sure everyone can use it! Thanks
BB2 4QA	Yes	There are not enough off roads paths this would be a very welcome addition. I am a horse rider who has had multiple near misses over the year and my friend not so lucky was hit by a car 2 years ago. There are very few off road options	Monthly	Horse Riding	A path separation for cyclist
PR67ST	Yes	This would link existing paths and provide much needed off road riding for horses. The increasing volume of traffic on our roads make it increasingly dangerous for horse riders. In the interests of safety I would recommend this being passed	Monthly	Horse Riding	
Pr5 0le	Yes	This would be a perfect safer horse riding route There are so few accessible bridleways/multi use paths across the borough	Monthly	Horse Riding	Love the plan, more like this please
Pr45ae	Yes	Bridlepath.	Weekly	Horse Riding	Lost Wymott. Need more spaces.
Pr7 4jz	Yes	We ride horses through Lorraine's Wood, Paradise Park and nearby bridle paths. Good idea to enable us to get off the roads.	Monthly	Horse Riding	
Pr45nd	Yes	Horse riding	Monthly	Horse Riding	
Pr7 7lq	Yes	This would be perfect as a walk with my baby in the pram. We like to go on regular family walks and this would be so beneficial to the area.	Monthly	Walking	
Pr4 5Nr	Yes	I use the area regular and would like to see a bridle track in for cycling and horse riding	Weekly	Horse Riding	This is essential off road riding to keep me and my horse safe from traffic
PR26 7ST	Yes	I hack my horse regularly round this path and would benefit from this path as it wouldn't be as close the Schleswig Way road.	Weekly	Horse Riding	
Bl35qa	Yes		Monthly	Horse Riding	

Home Post Code	Would you make use of an additional multi-use track based on the proposed design ?	How would you make use of an additional multi-use track based on the proposed design ?	How often do you visit Fossdale	Why do you visit Fossdale Moss	Are there any other comments you would like to make regarding this area of open space? - Other views
Pr75jz	Yes	Absolutely nowhere safe to tie our horses, the equestrian community is the vulnerable road user is continuously overlooked. I would use this daily and so would my daughter and I know wider equestrians in the area. We need more off road hacking	Daily	Horse Riding	<p>I would like to thank you for considering the equestrian community in this proposal as it feels nobody else does in this county. When looking at other county's we are so limited to safe off road hacking. For many horses it is vital for welfare and rehabilitation and when the roads are as unsafe as they are, we are continuously putting our, our horses and other persons life at risk should there be a collision. Road drivers do not have the same consideration anymore.</p> <p>Look how many off road lanes there are for cyclists, skate parks, the lot...there is nothing for our horses.</p> <p>As we continue to go on main roads this is raising the risk profile, why not give us somewhere safe to eliminate risk for all?</p> <p>I thank you for your consideration and I pray that this passed to ensure I can fulfil my veterinary advice to keep my horse going as per veterinary advice in a safe environment.</p>
Pr4 6US	Yes	Dog walking	Weekly	Walking	Preserve our green spaces
Pr44qb	Yes	I would love to use this as a horse rider with my daughter, we feel the roads are too busy and dangerous	Weekly	Horse Riding	Please ensure that you consider horse riders in new developments and keep our roads safer
PR7 4PA	Yes	Horse riding	Monthly	Horse Riding	It is becoming increasingly dangerous to ride on our roads with the volume of traffic and selfishness of many individuals. My horse was in a collision with a car a matter of weeks ago, because the driver was impatient and only interested in their journey.
WN6 0UU	Yes	Horse riding	Monthly	Horse Riding	
L401TY	Yes	There are very few safe places for me to take my children on their horses	Weekly	Horse Riding	
SK9 2NL	Yes	I am a member of the local equestrian community and would come more regularly if this was provided to give us a more safe hacking route	Monthly	Horse Riding	
FY8 4RT	Yes	I would use this path with my horse so I am not on the road as this would be a lot safer, and also link up for a longer ride	Monthly	Horse Riding	
Bb32hu	Yes	Horse riding would be great	Monthly	Horse Riding	
PR4 5QW	Yes	I am a horse rider and really struggle to get out and about on my horse as the roads are just not safe. This track would provide some much needed safe off road route .	Monthly	Horse Riding	
PR2 3YR	Yes	Yes to ride my horse as we are lacking safe off road routes in the Preston area.	Monthly	Horse Riding	<p>It would be great to see more accessible horse riding routes in this area.</p> <p>I think South Ribble Council are already quite accommodating for horse riders in comparison to Preston Council but it would be a valuable addition to the existing route around Wymott Prison.</p>
PR4 5NR	Yes	Will add value to the existing bridle ways in cyclists, horse rider and dog walkers	Weekly	Running	Extension of existing bridle way would be a very beneficial offering to all users and residents in the area.

Home Post Code	Would you make use of an additional multi-use track based on the proposed design ?	How would you make use of an additional multi-use track based on the proposed design ?	How often do you visit Fossdale	Why do you visit Fossdale Moss	Are there any other comments you would like to make regarding this area of open space? - Other views
BD23 4AQ	Yes	A horse riding route further away from a busy road is safer . This would also make use of more open spaces so easier for multiuser visibility	Monthly	Horse Riding	Horse riders are particularly vulnerable as road users and off road options are paramount to keep everyone safe. Many horse riding routes have been lost and / or incorporated into an existing route , forcing more riders on the road. This route helps keep a diverse group off the roads .
PR4 6UA	Yes		Monthly	Horse Riding	
Pr25 1yd	Yes	I ride My horse here so would be really beneficial for it to be horse rider friendly and have access for safe riding	Weekly	Horse Riding	To ensure that it is horse rider friendly and safe and accessible for users
PR26 9AY	Yes	To have more off road safe areas to ride horses bikes and to walk on is a must .	Monthly	Horse Riding	
Pr45zn	Yes	Trying to find good hacking is hard and it's nice to have somewhere safe and off the roads to ride	Monthly	Horse Riding	
Pr3 3hj	Yes	Off road routes are essential for many users to enjoy without the danger of traffic. I would use on horseback.	Weekly	Horse Riding	
LA1 4NY	Yes	As a vulnerable road user, any route that allows me to ride my horse away from traffic is very welcome. As this route links with other multi user routes it would extend the safe riding routes and distances available to me and other riders.	Monthly	Horse Riding	
Pr5 5uq	Yes	I'm always trying to find somewhere safe and traffic free to ride with my 5yr old granddaughter All iff Road routes are welcomed Traffic can be ignorantly close at best or treat there vehicles as weapons towards horses	Monthly	Horse Riding	Look forward to using the facility
PR7 5TW	Yes	Hacking my horse	Monthly	Horse Riding	The roads are very dangerous for horse and rider, an additional track would prevent a lot of accidents/near misses.
L35 1QZ	Yes	Any multi user available to vulnerable road users is a positive. Yes I would use when visiting friends. There is lot of Greenspace and given the increasingly built up area resulting in busier roads , multi user tracks would be SAFER for all.	Never	Don't Visit	Supporting horses to be included in development schemes is what I am interested in . Having researched this area while looking at the consultation, if the scheme gets the go ahead, it is likely that me and my horse will come to try the routes out .
pr42se	Yes	Would be fantastic to have a safe space to ride my horse without traffic. Nice to share the space with others in a safe environment.	Weekly	Horse Riding	A space like this should be enjoyed by all
